Full-Stack Software Developer

Software and web development are my passion,
I enjoy creating powerful, high-tech
and usable websites. Ease of use is a belief that
all my softwares are based upon.

10 years experience as a professional software developer.
Ability to direct projects from concept to operational status.
Goal-oriented individual with strong leadership capabilities.
Organized, analysts, highly motivated and a real quick learner.
Ability to work with developers and designers seamlessly.
Attention to details, details and more details.
